

DO YOU HAVE CELIAC DISEASE?

Follow a Gluten-free Diet?
Interested in Celiac Research?

Alba Therapeutics is conducting a study for people with celiac disease

The purpose of the research study is to look at how effective and safe an investigational medication is when it is given to subjects who have celiac disease. The study will include people who have been diagnosed with celiac disease and have been on a gluten-free diet for 12 months prior to entry into the study.

All participants will adhere to the gluten-free diet during the trial.

————— You may qualify for the study if you —————

- Are between the ages of 18 and 72 and have been diagnosed with celiac disease
- Have biopsy proven celiac disease
- Have had relief from your symptoms on a gluten-free diet
- Are willing to comply with a gluten-free diet for the duration of the study
- Are willing to undergo a gluten challenge and 2 evaluation biopsies
- Satisfy other inclusion criteria
